ARBOR ESSIS X THE SPOT

Arbor is inspired by the traces of time in nature. Its handcrafted, artisan glass surface captures a sense of layering, movement, and material depth, all expressed through soft, organic forms.

Echoing the patterns of tree rings and naturally aged surfaces, the sculptural glass responds to light in a way that constantly shifts—bringing out new reflections, shadows, and textures.

Balanced by a light metal structure, Arbor adapts effortlessly to different spaces, creating atmosphere through its materials, light, and finely crafted details.

1125 mm x 350 mm
