MAGNET

ESSIS X KVADRAT

Magnet combines transparent Kvadrat textile with laminated safety glass, bringing softness, depth and subtle colour to interiors while allowing light to flow through the material.

SIZING & ORIENTATION

Fabric width: 3000 mm

Maximum glass size: project specific, final dimensions depend on glass specification, processing and installation system.

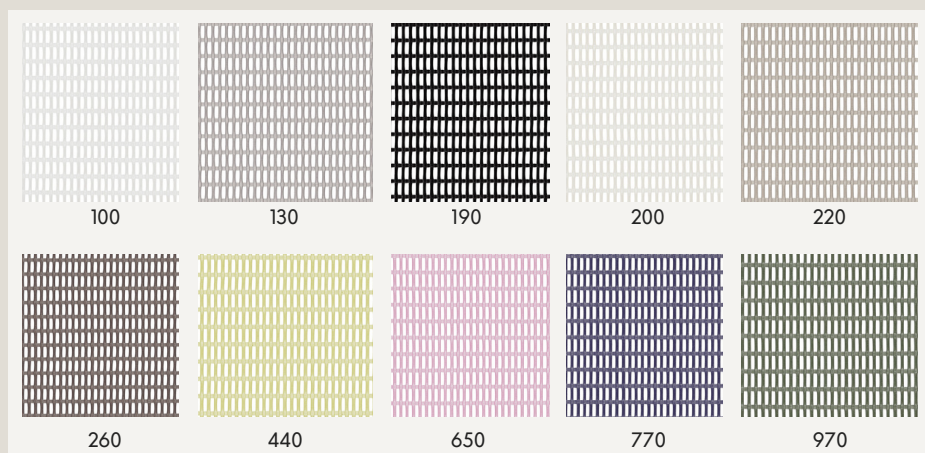

Fabric orientation: vertical or horizontal

MATERIAL CHARACTERISTICS

Slight variations in pattern alignment may occur during lamination.

Exact pattern matching between adjacent panels cannot be guaranteed.

Laminated edges may show occasional textile fibres. A surrounding frame or profile is recommended for a refined finish.

GLASS SPECIFICATIONS

Thickness: minimum 9.6 mm | Custom thickness on request or due to glass color.

Glass color: clear (float), optiwhite (extra clear), azur, green, blue, bronze, grey, dark grey

Edges: polished edges

Application: doors, partitions, shower screens, furniture etc.

Tempered Safety Glass

Laminated Construction

Interior Use Only

Custom Made in Finland
